U.S. 30 Bypass Reconstruction Program
Airport Road Project Area (Section AIR)
Virtual Public Meeting
Project Update

The Pennsylvania Department of Transportation (PennDOT) invites you to participate in a virtual public meeting for a project about the U.S. 30 Bypass Improvement Project surrounding the Airport Road Interchange (Section AIR) in Sadsbury, Valley, and West Caln townships in Chester County. This project is one of a series of projects that will reconstruct the U.S. 30 (Coatesville-Downingtown Bypass) corridor to improve safety, reduce congestion, accommodate planned growth, improve facility deficiencies, and improve system connectivity.

A virtual public meeting will be hosted online on Tuesday, December 8 at 6:00 PM. The link to participate can be found on the project website (www.us30-chesco.com). The department's design team will deliver a project presentation that will be followed by a question-and-answer period. The meeting will be recorded and posted to the project website. Comments will be accepted through the project website from December 8 through December 22.
